Installing PartnerPak Studio

Starting the PartnerPak Studio Installer

Download the Full Installation from the DeMichele Website at www.demichelegroup.com/ppakstudiodownload

- 1. Select the Full Installation Tab
- 2. Select the Exe or the Zip file for the windows xp, vista and 7 version of install you want to download on the left of the screen, and save file.
- 3. Run the Exe version by double clicking on the downloaded file.
- 4. To run the zip install, open the zip file and extract all files. Run Setup.exe from the unzipped folder to start the install.

Installation Steps:

Installing SQL Server Express

The PartnerPak Studio program requires several Microsoft components be installed before it installs the PartnerPak Studio application. SQL Server Express is the new data format, and must be installed first.

All Microsoft components must be installed with the settings we have already selected, so you simply need to follow the prompts and install the program. The screenshot for Step 1 shows all Microsoft components that need to be installed. Yours may look different due to other components that we need might or might not be on the system that we are installing. Follow on screen instructions to install all software required. You must be connected to the internet to do these updates.

Step 1: Press Install button to install all Microsoft controls that need to be installed prior to PartnerPak Studio.

Step 1: Microsoft Component List

Step 2: Check the box for accepting the License agreement.

Step 3: Press Next button to continue.

5

Step 2 and 3: Microsoft SQL License Agreement

Step 4: Press Install button to install the SQL Client and Setup software.

Step 4: Confirm Install

Step 5: Press Next button to continue.

Step 5: Press Next

Ready to Install Setup is ready to begin installation.
Setup has enough information to start copying the program files. To proceed, click Install. To change any of your installation settings, click Back. To exit setup, click Cancel.
The following components will be installed: • SQL Server Database Services (Database Services)
Help < Back Install Cancel

Step 11: Press Install button to continue.

Step 11: Press Install

Setup Progress The selected components are being o	onfigured	
	-	
Product	Status	
SQL Setup Support Files	Setup finished	
SQL Native Client	Setup finished	
SQL VSS Writer	Setup finished	
SQL Server Database Services	Setup finished	

Step 12: Press Next button to continue.

Step 12: Press Next.

Step 13: Press Finish.

Step 13: Press Finish button to continue to the next set of controls.

NOTE: Once the different Microsoft controls have installed, they may need to restart the computer. Once you have restarted, the installation will continue automatically. You may see a prompt to Run or Allow the program to continue to install depending on your operating system.

For every other Microsoft control not shown in this guide, just leave the default install paths and simply accept any agreement and press the install, next and finish buttons as they prompt you to do so.

Installing Direct X Web Components

The PartnerPak Studio program requires several Microsoft components be installed before it installs the PartnerPak Studio application. Direct X Web is the core of the new graphics capability and must be installed first. You are not required to install the bing toolbar, so this guide will show you how to deselect it and when.

Installing Microsoft(R) DirectX	® Welcome to setup for DirectX	
DirectX [®]	The DirectX setup wizard guides you through installation of DirectX Runtime Components. Please read the following license agreement. Pross the PAGE DOWN key to see the rest of the agreement. You must accept the agreement to continue the setup.	
	MICROSOFT SOFTWARE LICENSE TEXMS MICROSOFT DIRECTX END USER RUNTIME These locense terms are an agreement between Microsoft Corporation (or based on where you live, one of its affiliate) and you. (Hease cad them. They apply to the software named above, which includes the media on which you needwed it, if any. The terms also apply to any Microsoft - updates,	
	 I accept the agreement I don't accept the agreement 	
	< Back Next > Cancel	

Step 14: Accept the user license agreement by checking the box and Press Next button to continue.

NOTE: You must have internet connection to continue as this will install the latest Microsoft Direct X Updates.

Step 14: Press Next.

Step 15: Uncheck the Bing Toolbar and Press Next button to continue.

Step 15: Uncheck Bing Bar then Press Next.

Step 16: Press Next button to continue.

Step 16: Press Next.

Step 17: Press Finish.

Step 17: Press Finish Button to complete Direct X Web setup.

NOTE: You might need to restart the system after this installation depending on your video card. The computer will prompt you to do so if it is necessary and the software will continue installing once restarted. Otherwise go to step 18 to install PartnerPak Studio.

Installing PartnerPak Studio

The PartnerPak Studio program will now install and may add additional Direct X Web components during the installation. You can change the default directory to place the program installation on a different drive; however it will be your responsibility to make sure that you can read, write and change files in the location you are specifying. Ask your IT staff or contact the DeMichele Group if you are unsure of how to check for this.
