## Transferring Databases

---

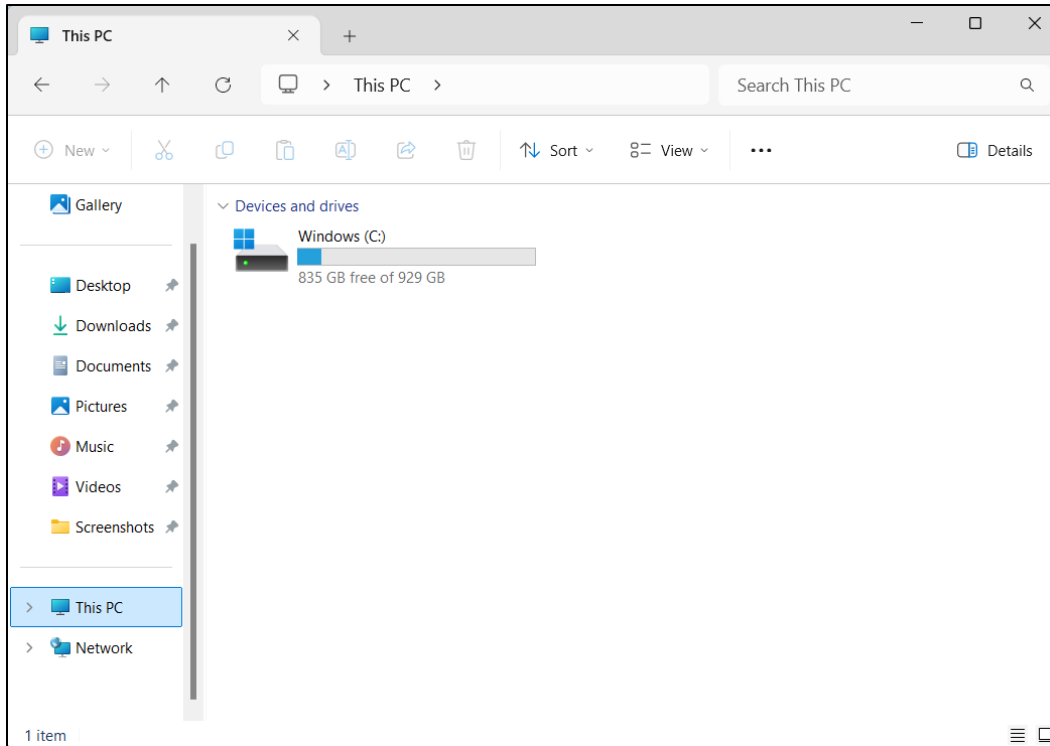

When transitioning to a new computer and seeking to transfer program information from your old device, here are the steps you should follow.

### Making Copy of Databases

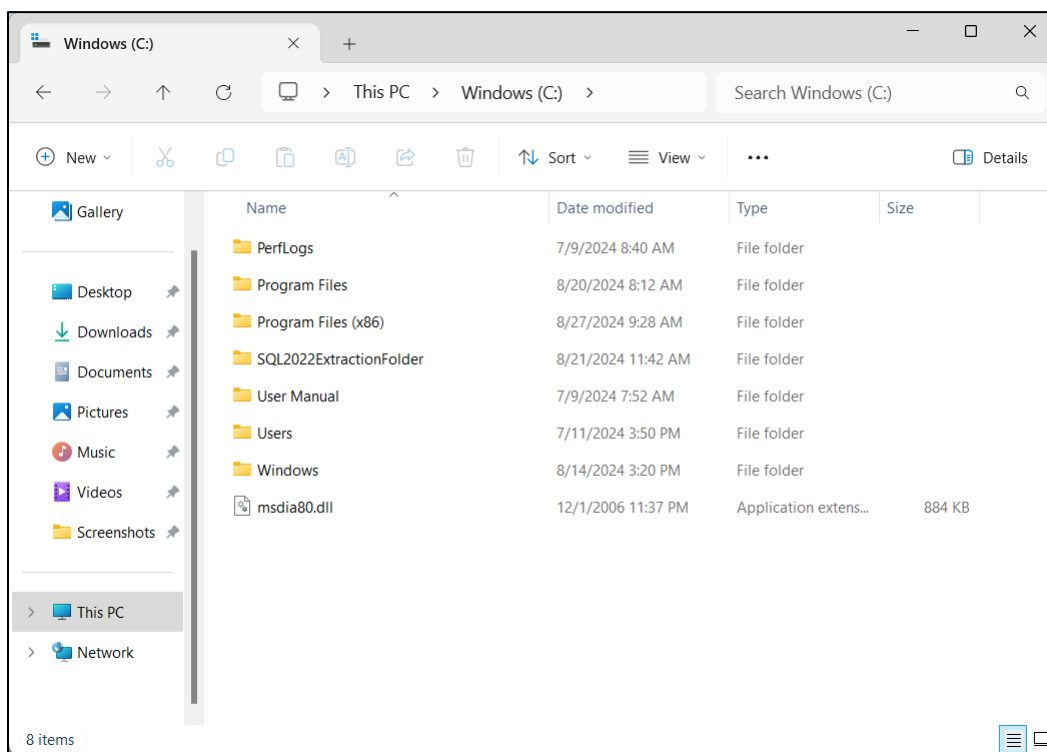

1. Open File Explorer

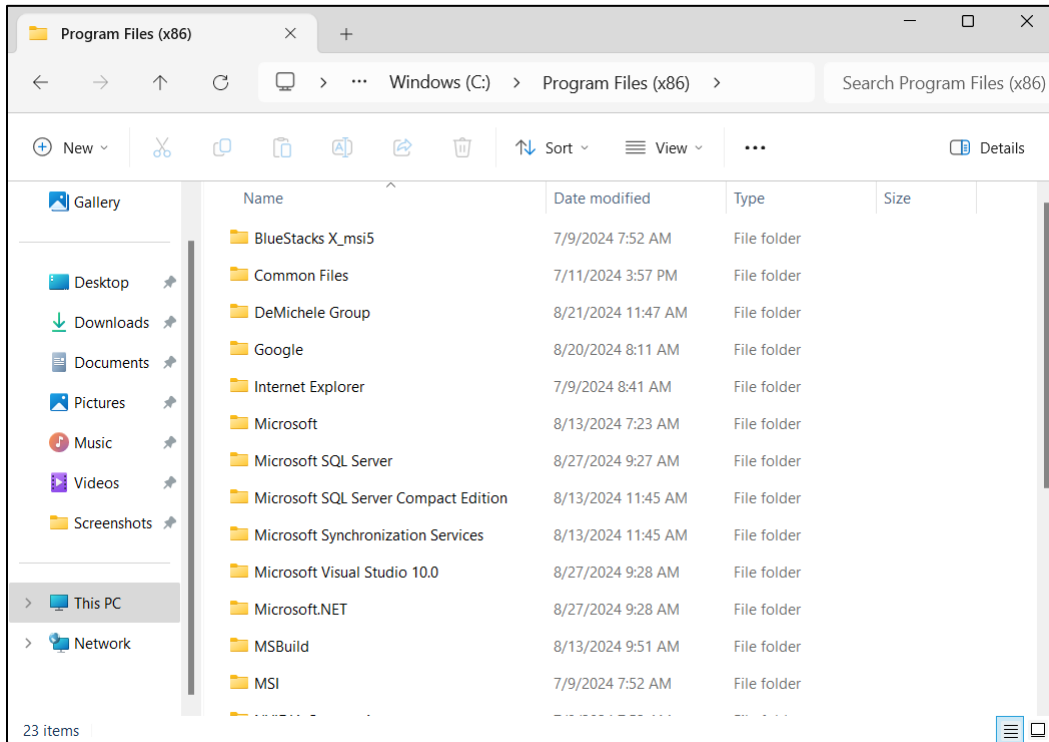

2. Go to This PC

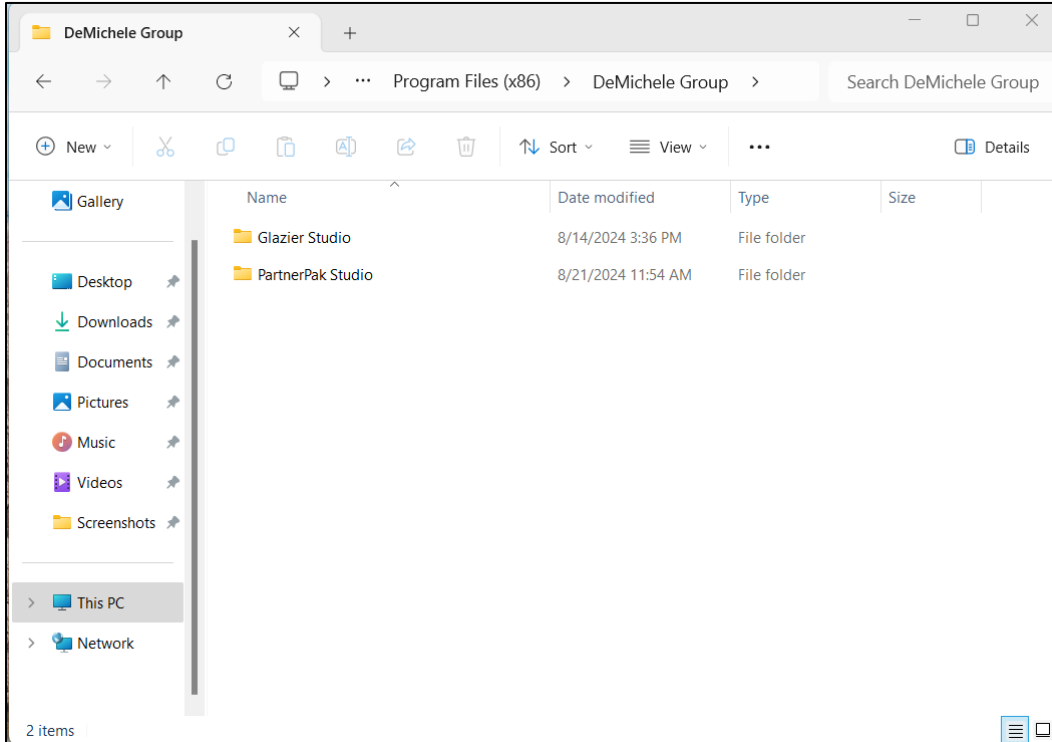

### 3. Go into (C:) Drive

### 4. Double click on Program Files (x86)

### 5. Double click on Demichele Group folder

### 6. Take copy of either Glazier Studios or PartnerPak and place folder on a thumb drive

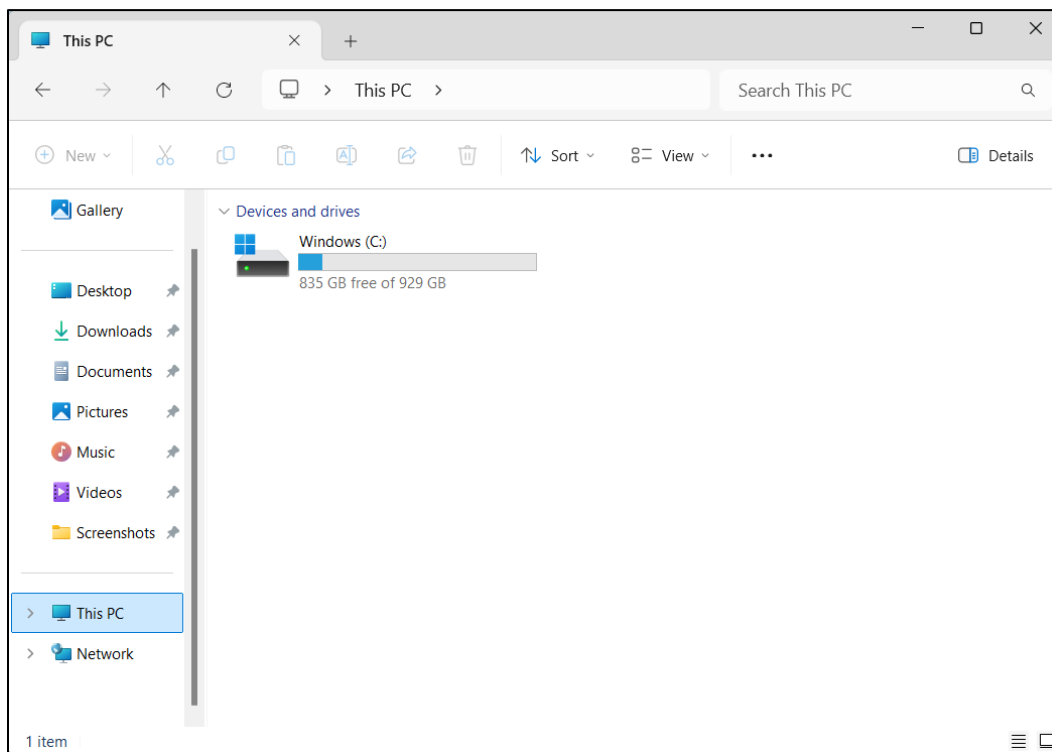

## Replacing Databases

Follow these steps after PartnerPak or Glazier Studio have been installed on the new computer.

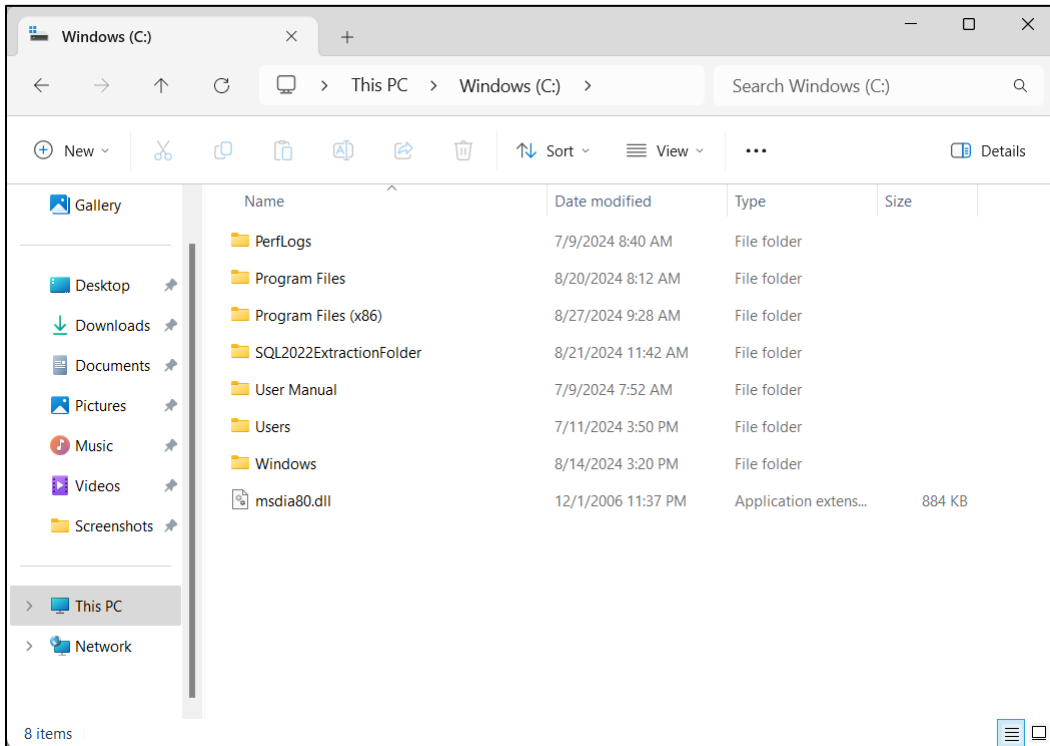

1. Plug hard drive with the copy of PartnerPak or Glazier Studio folder into new computer
2. On new computer open File Explorer

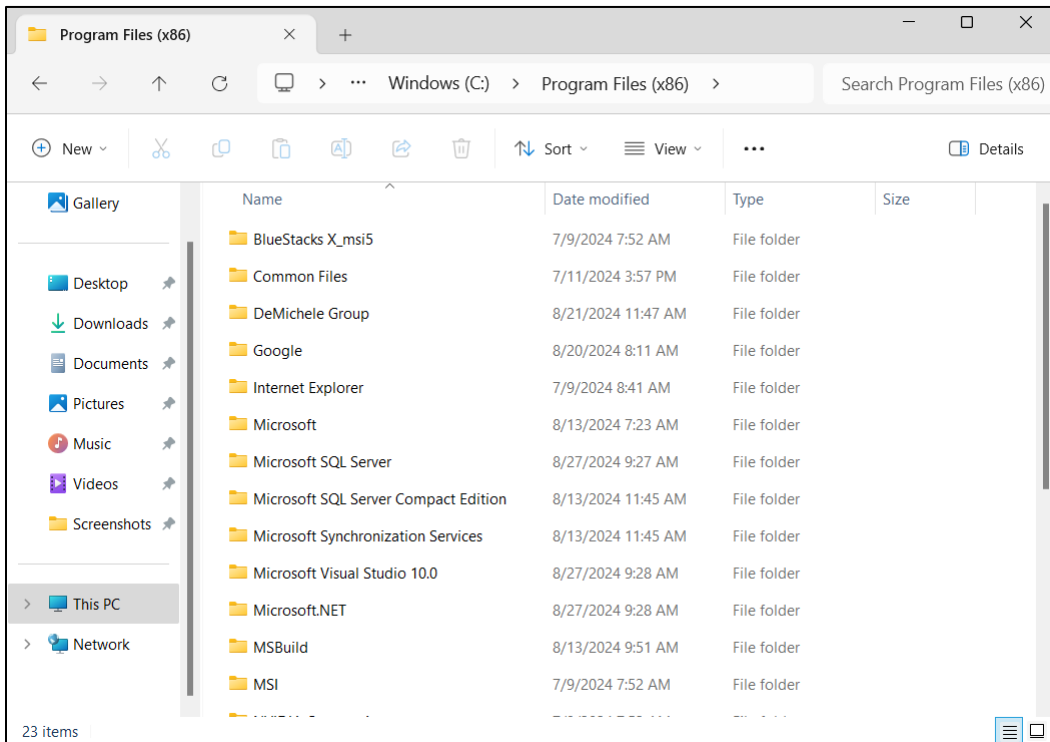

3. Go to This PC

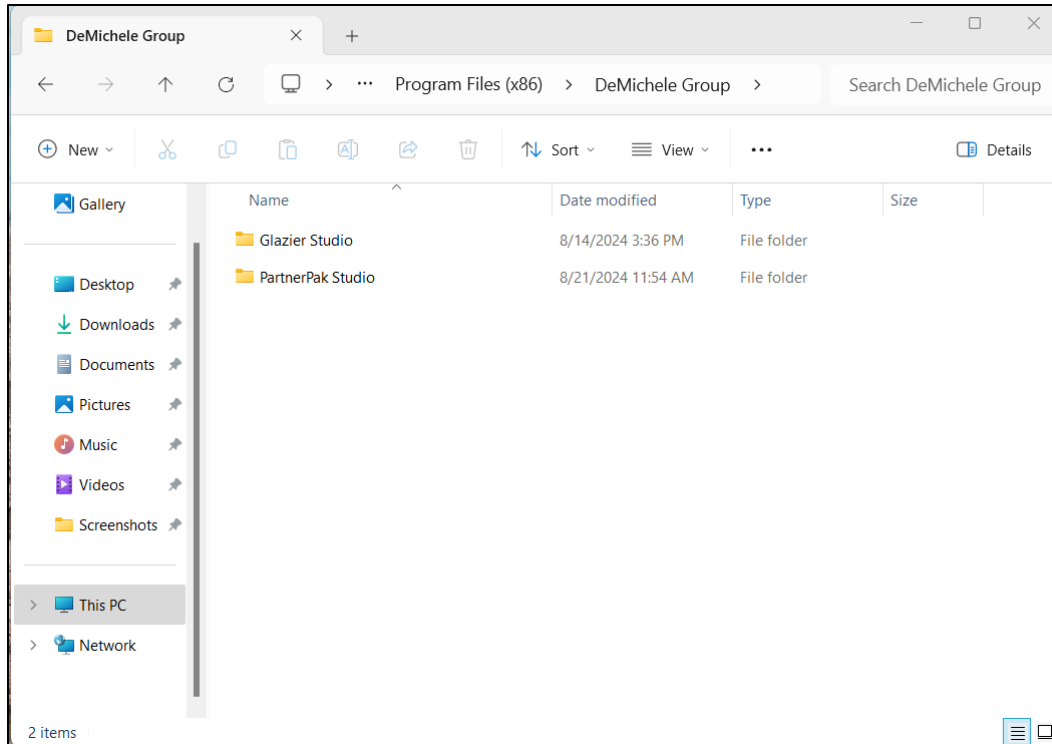

4. Go into (C:) Drive

## 5. Double click on Program Files (x86)

## 6. Double click on Demichele Group folder

7. Open a new tab of File Explorer and go to the thumb drive, copy the Glazier Studio or PartnerPak folder
8. Now go back to other tab with the DeMichele Group folder open and paste folder from thumb drive. Replace all files.
